

ABORTION IS PAGAN CHILD SACRIFICE BY ANOTHER NAME

More than 7,000 New Zealand babies are sacrificed on the altar of so-called 'women's rights' every single year.

Destiny Church leader Bishop Brian Tamaki said today that advancements in modern medicine show that a baby begins to independently defend itself within days of conception, proving that it is a human being with the right to life – which trumps all other human rights.

"Thousands of New Zealand mothers, most who don't know better, are persuaded and aided by activists, the Government and certain so-called health practitioners annually to carry out premeditated murder on their unborn children."

Legalising abortion ignores that fact that many women are pressured into having an abortion. It will leave them defenceless to protect themselves and their babies. It also leaves those women with a high risk of mental health issues.

Bishop Tamaki said the criminal justice system needs to be made to account for its failure to prevent genocide on New Zealand's unborn children. They are living people whose right to life is abused and denied.

"Abortion is none other than the savage pagan practises of baby sacrifice described in Ezekiel, Psalms and Jeremiah 19:5-6 – 'where they built the high places of Baal to burn their children in the fire as offerings to Baal'.

"This is human sacrifice to demons. The killing of babies is condemned in the Bible and history tells us that only the most decadent and corrupt societies tolerated such evil; only the vilest defended and celebrated it as a virtue."

Bishop Tamaki said abortion is an ancient act of evil re-enacted. Archaeologists have uncovered dumping grounds filled with the bones of hundreds of dismembered infants, which are equivalent today of the thousands of dead babies discarded by modern abortion clinics.

"They use the remains of unborn children in women's cosmetics. Abortion and the attitude of society to it is an obscenity against God and the vulnerable children we are supposed to protect and nurture.

"As a Christian, I know that demonic forces are behind the killing of our babies. Abortion is Satan's attempt to kill God in effigy by destroying the little ones created in God's image. We are not just dealing with a social or so-called health issue here, but with a demonic genocide. It is an act of child sacrifice to the postmodern radical left's demons of convenience, where they put social conventions and career well-being ahead of human life."

Bishop Tamaki said abortion is morally comparable to the Holocaust.

"The World Health Organisation estimates that 56 million abortions are committed every year worldwide. That figure means every 12 months the number of babies butchered globally is equal to the size of the population of the United Kingdom.

"Words and phrases like 'foetal tissue', 'abortion', 'pro-choice', 'women's rights', 'women's health care' and 'my body my choice' are words and phrases of convenience designed to hide the bloody murder of human life made in Gods image.

"Human life starts at conception, and the unborn have as much right as the mother whose womb they occupy. This wickedness happens in the 'dark' of the womb. In cold, clinical rooms designed to hide the murder that is taking place because out of sight is out of mind."

Bishop Tamaki said however that the suffering of woman who have had abortions can be healed with God's grace and love.

"There are women in the Destiny Church's Legacy programme who have had abortions because they didn't know better. But they are here and they are healed," he said.
